

Coach AI - Customer Profiles & Personas

Who Uses Coach AI and How

Market Overview

Target Market: Youth Soccer Coaches

Market Size:

- 3 million youth soccer coaches in US
- 60% are parent volunteers
- 30% are part-time paid coaches
- 10% are full-time professional coaches

Geographic Focus:

- Suburban areas with established youth soccer programs
- States with high youth soccer participation (CA, TX, FL, NY, NJ, PA)
- Growing markets (GA, NC, VA, WA, CO)

Age Groups:

- Primary: U10-U14 (75% of market)
 - Secondary: U8-U9 and U15-U19 (25% of market)
-

Primary Personas

Persona 1: Sarah - The Parent Coach

Demographics:

- Age: 38
- Occupation: Marketing Manager
- Location: Suburban Chicago
- Education: College degree
- Soccer background: Recreational player in high school

Coaching Profile:

- Team: U10 Girls Recreational
- Players: 12 (including her daughter Emma)
- Experience: 2nd season coaching
- Schedule: 2 practices/week (Tues/Thurs 6-7:30pm), 1 game/week (Saturday)
- Budget: \$0-50/year for tools

Pain Points:

- ❌ "I have no idea what I'm doing"
- ❌ "Planning practices takes forever"
- ❌ "I use the same 5 drills every week"
- ❌ "Other parents expect me to be an expert"
- ❌ "Work meetings run late, practice is in 30 minutes"

Goals:

- Make practices fun and engaging
- Help kids improve basic skills
- Don't embarrass herself in front of other parents
- Spend more time coaching, less time planning

Technology Comfort:

- Uses smartphone daily
- Comfortable with apps
- Not technical, but willing to learn simple tools

Coach AI Usage:**Initial Setup (Week 1):**

Monday evening:

- Download Coach AI
- Create team "Lightning Bolts U10"
- Fill in basic info (10 minutes)

Tuesday morning:

- Generate first practice (3 minutes)
- Print practice plan
- Run practice (success!)

Result: Immediate value, professional-looking practice

Typical Week (Weeks 2-16):

Sunday evening (10 minutes):

- Review last week's matches
- Generate Tuesday practice (3 min)
- Generate Thursday practice (3 min)
- Print both
- Done for the week!

Benefits:

- Saves 50+ minutes vs. traditional planning
- Kids love variety of drills
- Other parents impressed
- Confidence growing

Value to Sarah:

- Time savings: 2+ hours/week
- Confidence boost: Priceless
- Kid engagement: Visible improvement
- **Willing to pay:** \$20-30/month or \$150/year

Quote: *"Coach AI saved my sanity. I went from stressed every Tuesday/Thursday to actually enjoying coaching. The kids have learned so much more than I could have taught with my old 5 drills!"*

Persona 2: Mike - The Part-Time Competitive Coach

Demographics:

- Age: 45
- Occupation: High School PE Teacher
- Location: Austin, TX
- Education: Masters in Education, USSF D License
- Soccer background: Played college soccer

Coaching Profile:

- Teams: 3 (U12 Boys, U13 Girls, U14 Boys)
- Players: 40 total across all teams
- Experience: 8 years coaching
- Schedule: 6 practices/week, 3 games/weekend
- Budget: \$200-500/year for tools

Pain Points:

- ✖ "Managing 3 teams is overwhelming"
- ✖ "Can't remember what I did with each team"
- ✖ "Need consistent quality across all teams"
- ✖ "Limited time to plan (teaching full-time)"
- ✖ "Want players to actually develop, not just play"

Goals:

- Systematically develop players
- Maintain high standards across all teams
- Win league championships
- Prepare players for higher levels
- Build coaching reputation

Technology Comfort:

- Very comfortable with technology
- Uses Google Classroom, coaching apps
- Values tools that save time
- Willing to learn advanced features

Coach AI Usage:

Initial Setup (Week 1):

Sunday afternoon (30 minutes):

- Create 3 team profiles
- Set focus areas per team:
 - U12 Boys: First touch, quick passing
 - U13 Girls: Building from back, communication
 - U14 Boys: Pressing, transition defense
- Generate first week's practices (6 total)
- Review and customize

Result: Organized system for all teams

Typical Week (Season-long):

Sunday evening (20 minutes):

- Review weekend's matches
- Update focus areas based on performance
- Generate all 6 practices
- Customize 1-2 drills per practice
- Save and organize

Monday-Saturday:

- Run practices with confidence
- Track what works in Notes
- Star exceptional drills

Benefits:

- Systematic development across teams
- Clear progression visible
- Consistent quality
- Parents notice difference

Advanced Usage:

Month 3:

- Created block templates for each team
- Reusing successful practice structures
- Building favorite drill library
- Exporting season data

Result:

- Planning time: 20 min → 10 min/week
- Quality: Excellent and consistent
- Development: Visible player improvement

Value to Mike:

- Time savings: 3+ hours/week
- Quality improvement: 50%+ better practices
- Player development: Measurable
- **Willing to pay:** \$50/month or \$400/year

Quote: *"Coach AI is like having an assistant coach for each team. The ability to manage 3 teams with different focuses while maintaining quality is game-changing. My U12 boys won our division for the first time!"*

Persona 3: David - The Club Director of Coaching

Demographics:

- Age: 52
- Occupation: Full-time Director of Coaching
- Location: Seattle, WA
- Education: USSF A License, UEFA B License
- Soccer background: Professional player, European leagues

Coaching Profile:

- Direct responsibility: 10 teams (U14-U19 Boys Academy)
- Oversight: 50 coaches, 500 players
- Experience: 20+ years coaching, 10 years administration
- Schedule: Daily coaching, weekly staff meetings, curriculum development
- Budget: \$5,000-10,000/year for tools and resources

Pain Points:

- ❌ "Inconsistent quality across 50 coaches"
- ❌ "Volunteer coaches need better support"
- ❌ "No way to ensure club philosophy is implemented"
- ❌ "Parents complain about practice quality differences"
- ❌ "Time-consuming to train new coaches"

Goals:

- Implement consistent club curriculum
- Professional development for all coaches
- Scalable quality across all age groups
- Strong club reputation
- Player retention and development

Technology Comfort:

- Expert user
- Uses video analysis software, data platforms
- Values enterprise-level tools
- Needs robust features

Coach AI Usage:

Implementation (Month 1):

Week 1: Pilot Program

- Set up 5 teams with trusted coaches
- Create template team profiles aligned to club philosophy
- Train coaches on Coach AI
- Gather feedback

Week 2-4: Expansion

- Roll out to all 50 coaches
- Standardize focus areas by age group
- Create shared drill libraries
- Establish best practices

Result: Club-wide implementation

Ongoing Management:

Weekly:

- Review practice history across club
- Identify successful patterns
- Share best practices
- Support struggling coaches

Monthly:

- Analyze drill usage trends
- Update curriculum
- Create new templates
- Coach training sessions

Quarterly:

- Export season data
- Present to board
- Demonstrate player development
- Plan next phase

Club-Wide Benefits:

Consistency:

- All U12 teams use similar curriculum
- Quality baseline established
- Parents see professionalism

Efficiency:

- Coach training time reduced 60%
- New coaches productive immediately
- Less coordinator intervention needed

Development:

- Systematic player progression
- Better retention (up 20%)
- More competitive teams

Value to David:

- Consistency achieved: Club-wide quality
- Coach retention: Up 30% (better tools)
- Parent satisfaction: Measurably higher

- Player development: Documented improvement
- **Willing to pay:** \$2,000-5,000/year for club license

Quote: *"Coach AI solved our biggest problem: quality consistency across 50 coaches. We went from every coach doing their own thing to a unified, professional curriculum. Parents notice. Players benefit. Board is thrilled."*

Secondary Personas

Persona 4: Jessica - The High School Coach

Profile:

- Age: 35, PE Teacher
- Team: Varsity Girls Soccer (25 players)
- 4 practices/week, matches 2x/week
- Budget: School-funded (\$500/year)

Use Case:

- Needs variety for daily practices
- Seasonal periodization
- Integration with fitness program
- Share practices with JV coach

Coach AI Value:

- Practice cycles for season planning
 - Export to share with JV coach
 - Systematic skill progression
 - **Willing to pay:** \$300/year (school budget)
-

Persona 5: Carlos - The Individual Skills Trainer

Profile:

- Age: 28, Full-time trainer
- Clients: 20 individual players (private training)

- 30+ sessions/week (1-2 hour sessions)
- Budget: Business expense (\$1,000/year)

Use Case:

- Individual training programs
- Age/skill customization
- Track client progression
- Professional appearance for parents

Coach AI Value:

- Customizable individual sessions
 - Client-specific drill libraries
 - Professional documentation
 - **Willing to pay:** \$75/month (\$900/year)
-

Persona 6: Emma - The Coaching Course Instructor

Profile:

- Age: 48, USSF Coaching Educator
- Students: 100+ coaches/year
- Courses: D, E, F License courses
- Budget: Personal/course materials (\$500/year)

Use Case:

- Example practice plans for courses
- Demonstrate practice planning methodology
- Student resources
- Best practice sharing

Coach AI Value:

- Professional examples
- Teaching tool
- Student discounts

- **Willing to pay:** \$500/year + bulk student licenses

Customer Comparison Matrix

Attribute	Sarah (Parent)	Mike (Part-Time)	David (Director)

Willing to Pay	\$150/year	\$400/year	\$5,000/year club
Decision Driver	Time savings	Quality	Consistency

Use Case Scenarios

Scenario 1: Last-Minute Practice Planning

User: Sarah (Parent Coach)

Situation: Work meeting ran late, practice in 45 minutes

Solution:

5:15 PM - Remember practice at 6:00

5:20 PM - Open Coach AI on phone

5:22 PM - Generate practice

5:23 PM - Download HTML

5:25 PM - Print at home

5:30 PM - Leave for field

Result: Professional practice ready in 10 minutes

Scenario 2: Post-Match Adjustment

User: Mike (Part-Time Coach)

Situation: U12 boys lost 4-1, defending was awful

Solution:

Saturday evening:

- Team Hub → Add focus: "Defending 1v1"
- Note: "Struggled with direct play"

Tuesday practice:

- Generate Practice → Session Type: Balanced
- AI prioritizes defending drills
- Labels: "Matched focus tag: Defending 1v1"

Result: Targeted practice addresses weakness

Scenario 3: Club-Wide Consistency

User: David (Director)

Situation: Parents complaining about practice quality differences

Solution:

Month 1: Create U12 template

- Standard focus areas
- Age-appropriate drills
- Consistent structure

Month 2: Train all U12 coaches

- Share template
- Demonstrate Coach AI
- Support adoption

Month 3: Monitor and refine

- Review practice history
- Share best practices
- Celebrate successes

Result: Consistent quality across all U12 teams

Pricing Sensitivity by Persona

Price Points:

Individual Coach (\$10-30/month):

- Sarah: \$15-20/month sweet spot
- Entry-level coaches
- Price-sensitive
- Value: Time savings

Multi-Team Coach (\$30-50/month):

- Mike: \$40/month sweet spot
- Serious coaches
- Value: Quality + efficiency
- ROI: Clear time savings

Professional/Club (\$100-500/month):

- David: \$300-400/month club sweet spot
- Enterprise needs

- Value: Consistency + scalability
 - ROI: Coach efficiency + quality
-

Customer Journey

Awareness:

- Google search: "soccer practice plans"
- Coach referral
- Social media ads
- Coaching clinics

Consideration:

- Visit website
- Read features
- Check pricing
- Free trial signup

Adoption:

- Create first team (5 min)
- Generate first practice (3 min)
- "Wow, this is easy!"
- Run practice

Retention:

- Weekly usage (2+ practices)
- Build favorites
- See player improvement
- Subscribe after trial

Advocacy:

- Tell other coaches
- Share practices
- Online reviews

- Recruit assistant coaches
-

Key Takeaways

Primary Customer:

- Parent coaches (60% of market)
- Limited time and experience
- Need simple, effective solutions
- Price-sensitive but willing to pay for time savings

Growth Segment:

- Part-time competitive coaches (30%)
- Multiple teams
- Need efficiency and quality
- Higher willingness to pay

Enterprise Opportunity:

- Club directors (10%)
- Largest accounts
- Highest lifetime value
- Require advanced features

Universal Needs:

- Save time
 - Improve quality
 - Maintain consistency
 - Support player development
-

Coach AI serves all three customer types with progressive disclosure, making it the complete practice planning solution for every coach! 🌐 🎯
