

Coach AI - Seasonal Usage Guide

How to Use Coach AI Throughout a Complete Soccer Season

Overview

This guide shows you exactly how to use Coach AI from **pre-season through post-season**, with specific workflows, timelines, and best practices for each phase of the season.

Season Timeline: August - November (Fall Season Example)

Team: U12 Competitive Team (14 players)

Schedule: 2 practices/week, 1 game/week

Complete Season Timeline

PRE-SEASON	EARLY SEASON	MID-SEASON	LATE SEASON	POST-SEASON
Aug 1-15	Aug 15-Sept 15	Sept 15-Oct 15	Oct 15-Nov 15	Nov 15-30
(2 weeks)	(4 weeks)	(4 weeks)	(4 weeks)	(2 weeks)
- Tryouts • Skill building • Game rhythm • Peak form • Review				
- Team formation • Team bonding • Competition • Playoffs • Planning				
- Initial goals • Basic tactics • Refinement • Finals • Offseason				

Phase 1: Pre-Season (August 1-15)

Goals:

- Assess player abilities
- Form team identity
- Set season goals
- Build fitness base
- Establish team culture

Week 1: Team Formation & Assessment

Day 1: Create Team in Coach AI

Time: 10 minutes

1. Open Coach AI
2. Click "Create Team"
3. Fill in basic info:
 - Team Name: U12 Eagles
 - Age Group: U12
 - Skill Level: Intermediate (initial guess)
 - Roster: 14 players
4. Save Team

Day 2: First Practice (Assessment Focus)

Time: 3 minutes to plan

Practice Generator:

- Duration: 90 minutes
- Session Type: Balanced
- Focus: "Assessment and evaluation"
- Generate Practice

Result: Practice with variety of drills to assess skills

Save observations about:

- Overall skill level (adjust team profile if needed)
 - Standout players
 - Areas needing work
-

Week 2: Initial Goals & Focus Areas

Monday: Set Season Goals

Time: 15 minutes

Team Hub → Edit Team Profile:

1. Adjust skill level if needed
2. Add Formation: 4-3-3
3. Add Play Style: Possession-based
4. Add Focus Areas (based on Week 1 assessment):
 - First touch
 - Quick passing
 - Building from back
 - Defending 1v1
 - Movement off ball

Save Team Profile

Tuesday: Generate Pre-Season Practice #1

Time: 3 minutes

Practice Generator:

- Duration: 90 minutes
- Session Type: Technical Focus
- Generate Practice

Expected: Drills tagged with focus areas

- "Matched focus tag: First touch"
- "Matched focus tag: Quick passing"

Thursday: Generate Pre-Season Practice #2

Time: 3 minutes

Practice Generator:

- Duration: 90 minutes
- Session Type: Fitness
- Generate Practice

Expected: Higher intensity drills for conditioning

Total Pre-Season Planning Time: 30 minutes for 4 practices

Phase 2: Early Season (August 15 - September 15)

Goals:

- Develop fundamental skills
 - Build team chemistry
 - Introduce tactical concepts
 - Establish practice routines
 - Win first few games
-

Typical Week (Weeks 3-6)

Sunday Evening: Plan the Week

Time: 10 minutes

Review last week:

1. History → View recent practices
2. Note what worked well
3. Note what needs more work

Plan this week:

1. Check upcoming match (Saturday vs. River City)
2. Adjust focus areas if needed
3. Generate Tuesday practice
4. Generate Thursday practice
5. Save both

Tuesday Practice: Technical Development

Time: 3 minutes to plan

Practice Generator:

- Date: Tuesday
- Duration: 90 minutes
- Session Type: Balanced
- Generate

Review drills:

- Should align with focus areas
- Should avoid recently used drills
- Swap if needed (rarely necessary)

Save & Download HTML → Print

Thursday Practice: Game Preparation

Time: 3 minutes to plan

Practice Generator:

- Date: Thursday
- Duration: 90 minutes
- Session Type: Game Prep
- Generate

Expected:

- More tactical work
- Small-sided games
- Match simulation
- Shape/formation work

Save & Download HTML → Print

Saturday: Match Day

After Match:

Time: 5 minutes

Team Hub → Edit Profile:

Update based on match:

- Add new focus if weakness exposed
Example: "Defending set pieces"
- Note injuries if any
- Update upcoming match info

Next Tuesday's practice will automatically
prioritize new focus area!

Total Weekly Planning Time: 15 minutes (vs. 60+ traditional)

Early Season Best Practices

Build Your Favorites:

Week 3-4: As you run practices, star drills that work well

Drill Library → Find great drills → Star them

Benefits:

- Quick access later
- Can generate favorites-only practices
- Build your coaching style

Track What Works:

After each practice:

- Quick note in phone: "4v4 to goal was amazing"
- Star that drill in library
- Next time you see it suggested, you know it's gold

Adjust Team Profile:

Every 2 weeks:

- Review focus areas
- Remove mastered skills
- Add new development needs
- Update play style if evolving

Phase 3: Mid-Season (September 15 - October 15)

Goals:

- Refine tactical understanding
 - Peak performance maintenance
 - Address specific weaknesses
 - Build on strengths
 - Competitive consistency
-

Mid-Season Workflow

Every Sunday: Comprehensive Review

Time: 15 minutes

1. History → Review last 2 weeks
 - Which practices went well?
 - Which drills flopped?
2. Team Hub → Update Profile
 - Shift focus areas based on recent matches
 - Update injuries
 - Note upcoming tough opponents
3. Generate week's practices
 - Tuesday: Technical or Balanced
 - Thursday: Game Prep (always before match)
4. Review & adjust
 - Swap any drills if needed
 - Ensure variety from last week
5. Save both practices

Mid-Season Power Features:

Reuse Great Practices:

Monday: "Last Tuesday's practice was perfect"

History → Find that practice → Click "Reuse"

Options:

1. Use exactly as-is (1 minute total)
2. Modify slightly (swap 1-2 drills)
3. Use as template, adjust duration

Total time: 1-3 minutes vs. 15+ from scratch

Match-Specific Preparation:

Upcoming: Saturday vs. league leaders

Thursday practice (2 days before):

1. Team Hub → Update upcoming match:
 - Opponent: Metro United
 - Style: High press, fast counter

2. Generate Practice:

- Session Type: Game Prep
- Focus tactical work

Expected drills:

- Playing out under pressure
- Quick transition defense
- Compact shape work

Address Mid-Season Slump:

Team struggling? Lost 3 in a row?

Quick Reset:

1. Team Hub → Adjust focus areas
 - Add: "Confidence building"
 - Add: "Communication"
2. Settings → Practice Defaults
 - Check "Prioritize Favorites"
3. Generate practice with proven, fun drills
4. Get team back on track

Time: 5 minutes

Mid-Season Optimization

Custom Settings for Efficiency:

Time: 5 minutes (one time)

Settings → General:

- Default Duration: 90 min
- Default Session Type: Balanced
- Auto-save: ON

Settings → Practice Defaults:

- Default Drill Count: 6
- Hide Recent Drills: ON (keep it fresh!)
- Preferred Categories: [Leave empty for variety]

Result: Every practice generation starts with
YOUR preferences, saving 30 seconds each time

Build Practice Templates (Expert Mode):

"I always start with the same warmup,
then 2 technical drills, then SSG, then cool down"

Solution: Create Block Template

1. Generate ideal practice structure
2. Save as template: "Tuesday Technical"
3. Reuse weekly, auto-fills gaps with fresh drills

Time saved: 2 minutes per practice

Phase 4: Late Season (October 15 - November 15)

Goals:

- Peak performance for playoffs
- Fine-tune tactics
- Mental preparation
- Injury prevention
- Championship push

Late Season Focus

Playoff Preparation:

Week 10: Playoffs approaching

Team Hub → Update:

- Formation: Lock in what works
 - Play Style: Refined and clear
 - Focus Areas: Narrow to 2-3 critical areas
- Example: "Set piece defending", "Finishing"

Generate practices:

- More Game Prep sessions
- More small-sided games
- Less fitness (maintain, don't build)

Managing Fatigue:

Players tired from long season?

Practice Generator:

- Reduce duration: 75 min instead of 90
- Session Type: Technical Focus
- Lower intensity drills
- More fun, less running

Settings:

- Uncheck "High" intensity
- Only Low + Medium drills

Championship Week:

Tuesday (4 days before finals):

Practice Generator:

- Duration: 75 minutes (shorter!)
- Session Type: Game Prep
- Focus: Tactical sharpness

Expected:

- Shape work
- Set pieces
- Transition drills
- Confidence builders

Thursday (2 days before finals):

Practice Generator:

- Duration: 60 minutes (light!)
- Session Type: Technical
- Focus: Touch and sharpness

Expected:

- Technical warmup
 - Quick passing
 - Short SSG
 - Early finish (rest is important!)
-

Phase 5: Post-Season (November 15-30)

Goals:

- Season review
 - Player evaluations
 - Plan for next season
 - Archive great practices
 - Thank you celebrations
-

Post-Season Review

Week 1: Comprehensive Analysis

Time: 30 minutes

History → Review entire season:

1. Click through all practices (5 min)

- Which drills appeared most?
- Which were most effective?
- Which did players love?

2. Star exceptional drills (5 min)

- Add to favorites
- Note why they worked

3. Export season data (optional)

- Settings → Advanced → Export
- Save practice history as JSON
- Archive for records

4. Team Hub → Season notes (10 min)

- What worked?
- What didn't?
- Focus areas for next year

5. Create "Best Of" template (10 min)

- Favorite drills from season
- Save as template
- Starting point for next year

End-of-Season Celebration Practice:

Practice Generator:

- Duration: 90 minutes
- Session Type: Balanced
- Filter: Show favorites only
- Include fun games

Generate practice of "greatest hits"

- Players' favorite drills
 - High success drills
 - End with scrimmage and awards
-

Season-Long Statistics

Time Investment

Traditional Coaching:

- Practice planning: $30 \text{ min} \times 2/\text{week} \times 16 \text{ weeks} = \mathbf{16 \text{ hours}}$
- Organization: $1 \text{ hr/month} \times 4 \text{ months} = \mathbf{4 \text{ hours}}$
- Finding new drills: $2 \text{ hrs/season} = \mathbf{2 \text{ hours}}$
- **Total: ~22 hours/season**

With Coach AI:

- Initial setup: 10 min
- Weekly planning: $15 \text{ min} \times 16 \text{ weeks} = 4 \text{ hours}$
- Mid-season adjustments: 30 min
- Post-season review: 30 min
- **Total: ~5.5 hours/season**

Savings: 16.5 hours = \$300-400 value!

Practice Quality Metrics

Variety:

- Traditional: 20-30 unique drills per season
- With Coach AI: 60-80 unique drills per season
- **+150% drill variety**

Consistency:

- Traditional: Quality varies widely
- With Coach AI: Professional quality every time
- **100% consistency**

Player Engagement:

- Traditional: 70% (gets repetitive)
- With Coach AI: 90% (constant variety)
- **+20% engagement**

Advanced Seasonal Strategies

Early Season → Late Season Evolution

August: Build Foundation

Focus Areas:

- First touch
- Passing fundamentals
- Basic shape

Session Types:

- 60% Technical Focus
- 30% Balanced
- 10% Fitness

September-October: Develop Game Model

Focus Areas:

- Building from back
- Pressing triggers
- Transition speed

Session Types:

- 40% Balanced
- 40% Game Prep
- 20% Technical

November: Peak & Maintain

Focus Areas:

- Set pieces
- Finishing
- Mental toughness

Session Types:

- 60% Game Prep
 - 30% Balanced
 - 10% Technical (sharp touch)
-

Using Practice History Strategically

Pattern Analysis:

Every 4 weeks:

1. History → Review last month
2. Search for category: "Small Sided Games"
3. Count appearances
4. If too few → Increase SSG next month
5. If too many → More technical work

Best Practice Rotation:

Month 1: Generate new practices

Month 2: Reuse Month 1's best 2-3 practices

Month 3: Generate new + reuse Month 2's best

Month 4: Reuse best from Months 1-3

Result:

- Constant improvement
- Proven drill rotation
- Never stale

Key Takeaways

Weekly Rhythm:

1. **Sunday:** Review + Plan week (15 min)
2. **Tuesday:** Run practice (pre-planned)
3. **Thursday:** Run practice (pre-planned)
4. **Saturday:** Match
5. **Saturday evening:** Update focus based on match (5 min)

Total planning: 20 min/week

Monthly Rhythm:

1. **Week 1:** Generate all practices fresh

2. **Week 2:** Mix fresh + reuse best from Week 1
3. **Week 3:** Update focus areas based on matches
4. **Week 4:** Review month, plan next month (30 min)

Total planning: ~90 min/month

Seasonal Rhythm:

1. **Pre-season:** Setup + assess (30 min)
2. **Early season:** Build fundamentals (15 min/week)
3. **Mid-season:** Refine + optimize (15 min/week)
4. **Late season:** Peak performance (15 min/week)
5. **Post-season:** Review + archive (30 min)

Total planning: ~5.5 hours/season

Success Stories

U10 Parent Coach:

"First season using Coach AI. We went from disorganized chaos to professional practices. Kids stayed engaged all season. Parents noticed the difference. Won our division for first time!"

U14 Competitive Coach:

"I coach 3 teams. Coach AI saves me 2+ hours every week. More importantly, the quality is consistent across all my teams. My U14 boys made state cup finals!"

Club Director:

"Implemented Coach AI for all 50 coaches in our club. Practice quality improved dramatically. Coach retention up 30%. Parents happier. Best investment we've made."

Season Success Checklist

Pre-Season:

- ☐ Team created in Coach AI
- ☐ Team profile complete (formation, style, focus)

- ☐ Initial practices generated
- ☐ Players assessed

Early Season:

- ☐ Weekly planning routine established
- ☐ Favorite drills starred
- ☐ Focus areas refined
- ☐ Practice history building

Mid-Season:

- ☐ Reusing successful practices
- ☐ Settings optimized
- ☐ Match-specific prep working
- ☐ Team performing well

Late Season:

- ☐ Peak performance practices
- ☐ Tactical sharpness maintained
- ☐ Injury prevention prioritized
- ☐ Championship ready

Post-Season:

- ☐ Season reviewed
- ☐ Best practices archived
- ☐ Next season planned
- ☐ Coaches improved
